

WHAT I LEARNED — A SKY SURVEY

BRIGHT STARS: BRING ON DAY ONE · DIM STARS: HONEST, AND WORKING ON IT

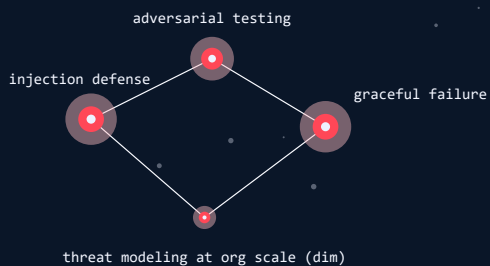

THE NAVIGATOR

*Charts unknown technical territory.
Strongest when the path is unclear.*

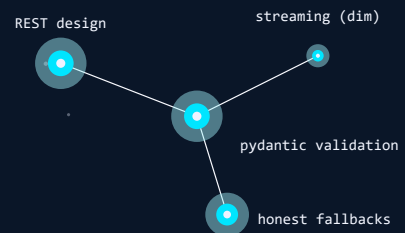

THE ALCHEMIST

*Turns raw uploads into evidence.
Refuses to transmute by guesswork.*

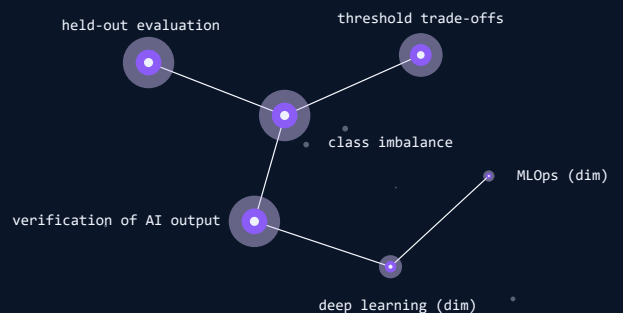

THE GUARDIAN

*Earned its shield the hard way:
its own arrows, its own walls.*

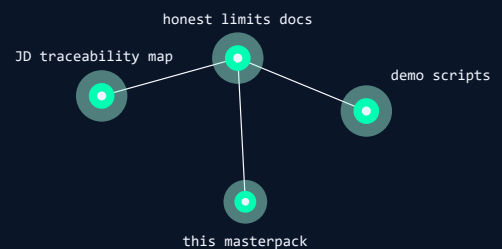

THE MESSENGER

*Carries data across boundaries
without ever changing the message.*

THE ORACLE

*Speaks only with error bars attached.
Distrusts even its own prophecies.*

THE CARTOGRAPHER

*Maps everything, including the dragons.
Especially the dragons.*

*The bright ones I'll bring on day one.
The dim ones — I'll be working on by week two.*

magnitude scale: ● strong (shipped, tested) ● working (used, not mastered) ● developing (named, not faked)
