

```
verita@build$ pytest -q
all tests green
$ uvicorn app.main:app
model loaded 0.36s
chain verified
$ ready for review _
```

THE NUMBERS (held-out)	
0.913	0.65
ROC-AUC	PR-AUC
284,807	0.17%
transactions	fraud rate
SHA-256	0
sealed	fabricated

Every number computed from real data at request time — nothing hardcoded.

Engineering posture: disk-backed dataset store (uploads survive restart) · risk model persisted (0.36s boot vs 21s retrain) · profiles computed once & cached.
