EDUCATION

MIT World Peace University, Pune

B. Tech Computer Science and Engineering (AI and Data Science)

August 2023 – May 2027

CGPA: 8.14/10.0

Relevant coursework: Data Analysis, Probability & Statistics, DBMS/SQL, Machine Learning, Data Mining, Predictive Modeling

Macro Vision Academy, Burhanpur

CBSE Board – Class XII: 86.60%, Class X: 90.80%

April 2019 – March 2022

CORE SKILLS

Business Analysis: Requirements Gathering & Elicitation, BRD/FRD/SRS Documentation, User Stories, Use-Case & Gap Analysis, Process Mapping, Requirements Traceability (RTM), Stakeholder Management, Business-Case & ROI Modeling, UAT

Data & SQL: SQL (MySQL, PostgreSQL, DuckDB), Advanced Excel (PivotTables, dashboards), Python (Pandas, NumPy), Exploratory Data Analysis (EDA), Hypothesis Testing

BI & Visualization: Power BI, Tableau, KPI Dashboards, Data Storytelling, Reporting, Matplotlib, Seaborn

Tools & Methodology: Agile/Scrum, Jira, Sprint Planning, Git/GitHub, UML & draw.io, FastAPI/REST APIs, MS Office

PROJECTS

Verita – Financial Crime & Compliance Intelligence Platform

May 2026 – Present

Business Analysis, BI Dashboards & Decision Support | SQL, Python, Pandas, Excel, Power BI, XGBoost, SHAP, FastAPI

- Owned the full BA lifecycle for a compliance-analytics product on **284K+ real transactions**: elicited the problem, wrote user stories, mapped the investigation workflow, and built a **quantified-ROI business case** to justify the build to stakeholders.
- Designed the **KPI/BI dashboard layer** – automated EDA, hypothesis-tested findings, revenue/volume/cost **forecasting**, scenario analysis, and natural-language→SQL querying – surfacing per-case **explainable reason codes (SHAP)** so non-technical reviewers can act on every decision.

MissionOS – Systems Engineering & Requirements Platform

Mar 2026 – Apr 2026

Requirements Engineering, Traceability & Trade Studies | JavaScript, Vite, Canvas, Chart.js, Selenium; IEEE-830 SRS, UML

- Built a lifecycle-management platform implementing core **BA artifacts** end-to-end: a **Requirements Traceability Matrix (RTM)**, **IEEE-830 SRS** & UML documentation, stakeholder-influence maps, WBS, a 5×5 **risk matrix**, and a multi-criteria **trade-study (MCDA)** decision tool tracking 247 requirements across 6 programs (58 automated tests).

VWS-Skoda Scheduling & Analytics – Industry Collaboration

Jun 2025 – Feb 2026

Client Requirements, Process Optimization & BI Reporting | Excel, Python, Pandas, SQL, Matplotlib, Seaborn

- Led an 8-month **VW Group Academy (Skoda)** engagement with direct **client interaction**: gathered scheduling requirements, mapped the as-is process, and delivered an ETL + priority-scoring workflow plus a **BI dashboard** (KPI cards, utilization heatmaps, threshold alerts) – automating ~1,243 annual events at **98.5% allocation** and **~80% less manual effort**.

BlotQuant DLM – Western-Blot Quantification & Forensics

Apr 2026 – Jun 2026

Life Sciences | Reproducible Lab Analytics | Python, PyTorch (ResNet-50), OpenCV, FastAPI, React

- Automated protein-band densitometry for molecular-biology labs to remove manual subjectivity and improve reproducibility, pairing it with an image-forensics engine (ResNet-50, ELA, FFT) that flags duplication/manipulation and generates **audit-ready PDF reports** in seconds.

AquaScan AI – Underwater Debris Detection (Green Tech)

Jan 2026 – Mar 2026

Environmental Monitoring & Computer Vision | Python, YOLOv8, OpenCV, FastAPI, NumPy

- Built a hybrid YOLOv8 + classical-CV system for real-time underwater trash detection to support ocean cleanup, using a 6-check adaptive z-score anomaly pipeline and a FastAPI service that returns annotated heatmaps and **JSON statistical reports**.

Accessible Kolam & Kaleidoscope Designer – SIH 2025

Aug 2025 – Sep 2025

Accessibility-Driven Design | Smart India Hackathon | Python, Streamlit, OpenCV, scikit-image, NetworkX, SpeechRecognition, gTTS

- SIH 2025 – Rank 63 (Top 10%)**: scoped accessibility requirements for visually-impaired users and shipped a voice-driven app (“Chitra” assistant: speech recognition + TTS) that creates, transforms, and analyzes Kolam patterns via a CV + graph-theory (NetworkX) pipeline.

WORK EXPERIENCE

Community Management and Growth Team – Intern

Sep 2023 – Nov 2023

Engineer's Cradle Pvt. Ltd.

Pune, India

- Drove cross-platform community growth across 3 digital channels, lifting user engagement **40%** through targeted, data-driven campaigns and **automated Excel dashboard reporting** to the founding team.

ACHIEVEMENTS & CERTIFICATIONS

- Certifications:** Google – Advanced Data Analytics | IBM – Data Visualization with Python | Indiana University – Financial Planning.
- Joint President**, Student Alumni Relations Society, MIT-WPU (2025–26) | **Execution Head**, RIDE 2025 tech fest (500+ attendees) – stakeholder coordination & delivery | **AIR 8**, National Creative Olympiad.
